§24.0901 Rules, Actuarial Valuations, Determined Interest Assumption Rate, Employ Actuary, Investment Counsel

The Board may make the rules it deems proper to administer the Retirement System. Subject to this ordinance, and the Board’s rules, the Board may modify benefits for service and disability, determine who are Members, and is the sole judge of the conditions under which persons may receive benefits from the System. The Board may also secure and pay reasonable compensation for the medical services and advice it deems necessary to discharge its duties.

The Board may employ an actuary as needed. Each year, on a fiscal year established for this purpose, the Board will employ an Actuary to make a valuation of the System’s assets and liabilities. At least once every five years, the Board will employ an Actuary to conduct a thorough investigation of the mortality, service and compensation experience of Members and other persons receiving benefits, along with an actuarial valuation of the System’s assets and liabilities. From time to time, the Board will also determine the assumed rate of interest earnings for the Retirement Fund. The Board may also employ independent investment counselors as needed to provide professional services to support the Board’s investment responsibilities.

Once the City Council adopts the budget ordinance, the Board will appropriate, from the Undistributed Earnings Reserve, a sum sufficient to meet the budgeted expenses of operating the System for the fiscal year concerned.
